

## **Making Long Distance Calls from Classrooms (or other Toll-Restricted Location in SD19 Sites)**

1. Pick up the telephone and dial the full long distance phone number as usual (can dial using a “9” at the beginning or just start with the “1” – either will work ☺)
2. If the phone number is long distance, the phone will display “ENTER ACCOUNT” – enter in **468#** on the number pad.
3. Phone call will be completed and start ringing.
4. There is no step number 4 ☺

**Please do not provide code to students, guests, or post by telephone – thanks!**
